About me

Seeking a challenging position as a Full Stack Developer where I can utilize my skills and knowledge to contribute to the success of innovative projects, while continuously enhancing my expertise in the IT field.

Education

- | | | |
|-----------------------------|-------------|---------------------|
| • Full-stack developer MERN | NxtWave | Aug 2022 - Present |
| • Mechanical Engenering | KITS divili | May 2016 - May 2020 |

Skills

- | | | | |
|-----------|--------------|-------------|--------------|
| • HTML | • CSS | • Bootstrap | • Javascript |
| • Node.Js | • Express.js | • MongoDB | • SQL |
| • Python | • Linux | • GIT | • GITHUB |

Projects

➤ Pig Game

- Developed a multiplayer web-based game using HTML, CSS, and JavaScript, allowing users to roll a dice and add scores in real-time, significantly enhancing user engagement and interactivity through competitive gameplay.
- Implemented robust game logic and state management to handle player turns, scoring rules, and win conditions, demonstrating advanced problem-solving skills and proficiency in asynchronous programming concepts.

➤ Guess the Number Game

- Developed an interactive game using HTML, CSS, and JavaScript to manage user input and game logic.
- Ensured the game was fully responsive and provided an optimal user experience across various devices and screen sizes.

➤ Todos Application

- Created a web-based Todos application from scratch using HTML, CSS, and JavaScript.
- Implemented interactive features for adding, editing, and marking tasks as completed.
